

## MINE UPDATE

VGCX.COM

### EAGLE GOLD MINE'S WATER TREATMENT PLANT

**The Water Treatment Plant (WTP) now in operation at the Eagle Gold Mine allows the Company to treat site contact water for discharge.**

Contact water is any that makes contact with mining operations, which is captured by a series of ditches and other water management infrastructure and directed to the mine site's Control Pond and then pumped to the WTP for treatment.

The WTP is designed to process up to 14,000 cubic metres of water per day. For comparison, an Olympic-size swimming pool is 2,500 cubic metres. The plant's discharge quality requirements are stated within Victoria Gold's Water Use License, as set out by the Yukon Water Board; following a thorough licensing process involving federal and territorial government agencies, the First Nation of Na-Cho Nyak Dun and other interested parties to ensure the environment is protected.

"The discharge of this water gives the Victoria Gold team another tool to manage accumulations of site contact water at the Eagle Gold Mine," says Victoria Gold President & CEO John McConnell.

The WTP will be used for Eagle Gold Mine's operations and closure and reclamation phases ensuring protection of the environment for the life of the mine and beyond.

### VICTORIA GOLD IS PROUD TO HAVE YUKONERS AT WORK

**IF YOU ARE A YUKONER WITH MINING EXPERIENCE, WE ENCOURAGE YOU TO CONNECT WITH US.**

Victoria is currently hiring tradespeople, equipment operators, process/crusher operators and other positions to work at the Eagle Gold Mine. Visit the "Work For Us" page on our website at [vgcx.com/contact/work-for-us/](http://vgcx.com/contact/work-for-us/) and send your resume to [greatpeoplework@vgcx.com](mailto:greatpeoplework@vgcx.com).

### ABOUT VICTORIA GOLD & THE EAGLE GOLD MINE

The Eagle Gold Mine is situated within Victoria Gold's Property, located approximately 375 kilometres north of Whitehorse and 85 kilometres north, northeast of the Village of Mayo within the traditional territory of the First Nation of Na-Cho Nyak Dun. The property is accessible by road year-round and is connected to Yukon Energy Corp.'s electrical grid. The mine is a significant contributor to the Yukon economy employing 350-400 people.
